

每一个超事件都有一个对应的数字（序号），具体可以查看

```
localisation > ! adorable_heart_super_event_l_simp_chinese.yml
```

所有的格式都必须严格按照示例格式

本地化也尽量写在一起方便管理

```
super_event_137_CLOSED_LOC: "我们的故事从未结束"
#北上战争
super_event_138: "北上战争"
super_event_138_QUOTE_LOC: "巨龙咆哮，\n只是为了让世界听到它的声音。 \n骑士拔剑，\n仅是因为"
super_event_138_QUOTE_SOURCE_LOC: "—$t露西莉亚$"
super_event_138_CLOSED_LOC: "为无名者献上此剑"
#谢幕之战
super_event_139: "落幕战争"
super_event_139_QUOTE_LOC: "嘘.....不要害怕。 \n这只是.....童话故事里，\n最华丽的其中一页而已。"
super_event_139_QUOTE_SOURCE_LOC: "—$1莉莉安娜$"
super_event_139_CLOSED_LOC: "那么.....入座吧"
#诀别之战
super_event_140: "诀别之战"
```

本地化按照顺序增加即可

图片：

```
interface > ≡ adorable_heart_super_event.gfx
```

```
name = "GFX_super_event_35"
textureFile = "gfx//superevent_pictures//super_event_coronation_of_Sanae.dds"
}
spriteType = {
name = "GFX_super_event_36"
textureFile = "gfx//superevent_pictures//super_event_Floreal_Revolution.dds"
}

图片也需要和序号对应

音乐：

music > super_event > ≡ superevents.asset

```
music = {
  name = "super_event_22"
  file = "das_Deutschlandlied.ogg"
}

music = {
  name = "super_event_37"
  file = "长城谣.ogg"
}

music = {
  name = "super_event_40"
  file = "你若三冬.ogg"
}

music = {

  file = "神州万里.ogg"
}

music = {

}
}
}

    }
  }
}

}
}
music = {
  song = "super_event_96"
  chance = {
    modifier = {
      factor = 0
    }
  }
}
```

音乐也需要按照序号

触发：

```
set_variable = { adorable_heart_super_event_var = 1 }  
adorable_heart_fire_super_event = yes
```

第一行的变量填超事件的序号

第二行表示播放音乐

set_variable = { adorable_heart_super_event_var = 1 }

adorable_heart_fire_super_event = yes
